

Project Initialization and Planning Phase

Date	29 September 2026
Team ID	SWTID-2026-1307
Project Name	Script-Controlled ACL – Restrict Record Access Based on Field Value
Maximum Marks	3 Marks

Define Problem Statements (Customer Problem Statement Template):

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love. A well-articulated customer problem statement allows you and your team to find the ideal solution for your customers' challenges. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.

Example:

Problem Statement (PS)	I am (Customer)	I'm trying to	But	Because	Which makes me feel
PS-1	An HR Manager.	Restrict confidential employee records	All employees can see confidential field	No field-based ACL is configured	Insecure and worried about data leak
PS-2	An IT Security Admin	Control access based on region field value	Control access based on region field value	ACL is not checking field value	Frustrated
PS-3	A Finance Lead	Restrict salary records access	Non-finance users can view salary field	Script-based condition is missing	Concerned
