

Demonstration of Proposed Features

Date	30 September 2026
Team ID	SWTID-2026-1307
Project Name	Script-Controlled ACL – Restrict Record Access Based on Field Value
Maximum Marks	1 Mark

Demonstration of Proposed Features:

This document captures all the features that were proposed during the project planning phase and tracks whether each feature was successfully implemented and demonstrated. It serves as evidence of the team's ability to deliver on the proposed solution.

S.No	Feature Name	Description	Status (Implemented / Partial / Pending)	Demonstrated (Yes / No)	Remarks
1	Roles, Users & Sample Data	Create the incident_manager role, a Manager User, a Normal User and sample incidents with different priorities.	Implemented	Yes	Used for all test cases.
2	Script-Controlled Read ACL	Advanced Read ACL on the Incident table with a server-side script that returns true or false.	Implemented	Yes	Created after role elevation.
3	Field Value Based Restriction	Incidents with Priority 1 - Critical are hidden from normal users in lists and forms.	Implemented	Yes	Verified as Normal User.
4	Role-Based Access for Managers	Users with the incident_manager role can view all incidents, including restricted ones.	Implemented	Yes	Manager User sees all records.
5	Direct URL Access Protection	A restricted record cannot be opened by a normal user even with its direct URL or sys_id.	Implemented	Yes	Security constraint message shown.
6	Update Set Deployment	Export the configuration as an Update Set XML and commit it on another instance.	Implemented	Yes	Tested with preview and commit.

Feature Implementation Summary:

Total Features Proposed	6
Total Features Implemented	6
Total Features Demonstrated	6
Overall Implementation Rate (%)	100%
